

HIRING FOR EXPERIENCE WITH ON-THE-JOB TRAINING

GROW YOUR WORKFORCE WITHOUT BREAKING THE BANK

On-the-Job training (OJT) and other work-based learning tools ease the cost and risk businesses can incur when taking on the task of training new hires. Eligible companies can receive 50% wage reimbursements for a pre-set period, usually up to 12 weeks. Combined with recruitment, screening, and placement services, OJT means big savings in time and money for growing your workforce. Our Business Services team can meet with you to specify skills, recruit potential candidates, customize training plans, and assist with paperwork to help your workforce reach the next level.

Recruit Smarter

Choose from pre-screened, work-ready applicants or refer your candidates to check for program eligibility.

1

Hire & Retain

OJT participants are your employees, and remain with your company after the initial training period.

3

2

Train Your Way

Contact Southwest Missouri's Business Services Representative today to help you design and deploy a training plan specific to your firm's needs.
